Gongabu, Kathmandu

PROFESSIONAL SUMMARY

I'm Prashanna Lohani, a web developer skilled in HTML, CSS, JavaScript, React.js, and Python. I'm passionate about building user-friendly, scalable apps and love solving challenges through teamwork and continuous learning.

WORK EXPERIENCE

Varosa Technology | FEB 2025 - Present

- Front-End Developer for government Shramsansar platform and SaaS product Calilio
- Utilized React.js, Tailwind CSS, RESTful APIs, GraphQL, Leaflet.js, and Stripe payment integration
- Developed responsive, user-friendly interfaces with strong focus on performance and accessibility
- Implemented efficient state management and data fetching using REST and GraphQL APIs
- Built reusable, scalable UI components and managed complex UI/UX challenges
- Integrated dynamic map visualizations with Leaflet.js and payment workflows with Stripe
- Optimized front-end architecture for maintainability and scalability across projects

Janaki Technology | JAN 2023 - FEB 2025

Associate Software Developer

- Developed scalable, high-performance internal tools for lead tracking and debt management
- Used React.js, JavaScript, and Python Django for frontend and backend development
- Built intuitive, user-friendly interfaces with efficient state management
- Ensured seamless integration with backend APIs to streamline office workflows
- Enhanced productivity by creating reliable and maintainable web applications

SKILLS

- Front-End Development
- Integration with REST APIs
- Collaboration
- Code Quality and Maintainability
