Prashanna Lohani

About Me

I'm Prashanna Lohani, a web developer skilled in HTML, CSS, JavaScript, and React.js, with a passion for creating user-friendly, scalable applications. While my expertise lies in React, I'm eager to expand into Vue.js and quickly adapt to new technologies. I thrive on solving complex challenges and collaborating with teams to deliver impactful solutions.

Experience

Janaki Technology Jan 2023 - Present
Associate Software Developer
I specialize in front-end development using JavaScript and libraries like React.js to build robust, user-friendly web applications. My focus is on creating scalable, high-performance solutions that enhance user experiences and meet dynamic business needs.

Janaki Technology Sep 2022 - Dec 2022
Intern / Software Developer
During my internship as a Software Developer, I advanced from basic HTML and CSS to gaining expertise in JavaScript, React.js, and Python. I also developed foundational knowledge of RESTful APIs, including tokenization and authentication, enhancing my front-end and backend integration skills.

Education

2021-2024
Herald College Kathmandu
Bachelor in InformationTechnology

2019-2021
National School of Science
+2 Science Stream

2008-2018
Fluorescent Secondary School
Secondary Education Examination

I pursued a Bachelor's degree in Information Technology at Herald College Kathmandu, focusing on software development, web technologies, and data analysis from 2021 to 2024.

I completed my +2 studies in Science at the National School of Science from 2019 to 2021, gaining a strong foundation in mathematics and physics.

My early education concluded with the Secondary Education Examination at Fluorescent Secondary School, where I developed essential academic and personal skills from 2008 to 2018.

Language
